

In the video this picture was taken from, the detainee explains: *"This is Corinth camp. [...] This is the kind of food they give us. We really have stomach pain now, I go to the toilet 24 hours a day, and we have constipation. Yesterday they gave us beans, and today they gave us potatoes. Just look, they don't even give us a spoon or anything else, and this is our food. I only ate dry bread because I couldn't eat this food. This is our lunch."* (translated from Farsi)
